DEPARTMENT OF AGADTANTRA

INTRODUCTION:

Agad Tantra deals with study of various venomous animals, insects, plants and combination of poisonous and non poisonous drugs, their impact on health. Food poisoning, adulteration, various types of pollutions, its clinical significance, integrating both modern and Ayurvedic concepts. It's further deals with Gara Visha and Dushi Visha (residual and concomitant poisoning). This department focuses on clinical assessment, analysis and application of unique concepts of Agad Tantra in day today practices. This subject will help students to understand medicolegal importance and it's implication during medical emergency.

The department is having well equipped laboratory, a library, museum, medicolegal models and specimens for practical demonstrations. These facilities ensure that students gain a hands-on, comprehensive understanding of Agad Tantra as well as forensic and Toxicology subjects.

As it's one of the branch of Ayurveda which deals with emergency conditions students enables to explore and identify it's implementation through laboratory training and OPD as well as IPD postings. This will enhance wide application of basics of Agad Tantra in further research activities and nurtured clinical skills.

All second year BAMS students are required to perform court visits, post mortem observations and field visits to enhance medicolegal knowledge.

Agad Tantra helps students to acquire scientific approach in critical evaluation of various challenging diseases like skin condition, infectious disorders, residual toxicity, drug interactions etc.

Medicolegal knowledge is need of hour during critical conditions as well as in day today practices. Basic understanding of this discipline is necessary for emergency condition, various untreatable illnesses and make students medico-legally sound practitioner.
